How Can Ralph C. Wilson, Jr. Centennial Park Tie in With Future Improvements in Buffalo?

As the design for Ralph C. Wilson, Jr. Centennial Park evolves it is important to keep in mind the potential for future changes within the larger neighborhood context. Developed in coordination with the City of Buffalo and the Buffalo Olmsted Parks Conservancy, the Contextual Master Plan looks for opportunities to strengthen the connection between the Conservancy and the City of Buffalo and the Buffalo Olmsted Parks Conservancy creates a collaborative process to identify the recreation needs and opportunities outside the project boundary. These include substantial new parkland and program east of I-190. This opportunity for additional neighborhood soccer fields, which are in high demand. The Contextual Master Plan also explores the potential to modify the recreation already offered in Front Park. An additional regulation-sized soccer pitch could be added by relocating the tennis courts currently housed there.

As the design vision for the park evolves it is important to keep in mind the potential for future changes within the larger neighborhood context. Developed in coordination with the City of Buffalo and the Buffalo Olmsted Parks Conservancy, the Contextual Master Plan looks for opportunities to strengthen the connection between the Conservancy and the City of Buffalo and the Buffalo Olmsted Parks Conservancy creates a collaborative process to identify the recreation needs and opportunities outside the project boundary.
